Each year, we provide our customers with an annual Water Quality Report to let you know how our water quality stacks up against federal and state standards for safe drinking water. We encourage you to review this report as it provides details about the source and quality of the drinking water delivered to your community in 2022.

If you wish to have a paper copy, you can print one directly from our website. You can also receive a printed version by contacting us at 610-398-1444 or 610-437-7515.
